

Enveo Therm

PRODUCT CATALOGUE

**CHARMING FACADES
THAT NEVER FADE**

Innovation backed by expertise

EnveoTherm builds on Saint-Gobain's decades of global experience and continuous innovation. Materials proven in countless projects, combined with advanced technologies, create a unique system designed to meet even the most demanding requirements.

The essentials of choosing EnveoTherm

- **Design Freedom:**
nearly 400 color shades and two plaster textures to match any architectural vision.
- **BIM Compatibility:**
access detailed BIM models to streamline your design and planning process.
- **Technical support:**
request consultation or a price quote from our team of insulation specialists.

Built with highest – quality components proven in 10 European countries, awarded by ETA certification. EnveoTherm offers performance and longevity you can rely on.

Solution for facades that never fade

EnveoTherm is a unique insulation system, composed of the highest quality formulas, which has stood up to the toughest tests. Its variability, durability and wide range of colours will immediately win your attention.

EnveoTherm's key benefits

- ETA certified for performance and reliability
- For both new buildings and renovations
- Long-lasting performance with low maintenance
- Two variants, one standard of quality

Choose between Excellent and Premium. Each solution is designed to fulfil the unique demands of your project while upholding the highest standards.

EnveoTherm Premium

Designed for demanding projects. The Premium system combines advanced technologies such as 3D Force mesh with improved workability, ensuring superior functionality and ease of application. Its wider range of product components enhances versatility, while the extended warranty of up to 15 years gives further assurance of its long-lasting performance.

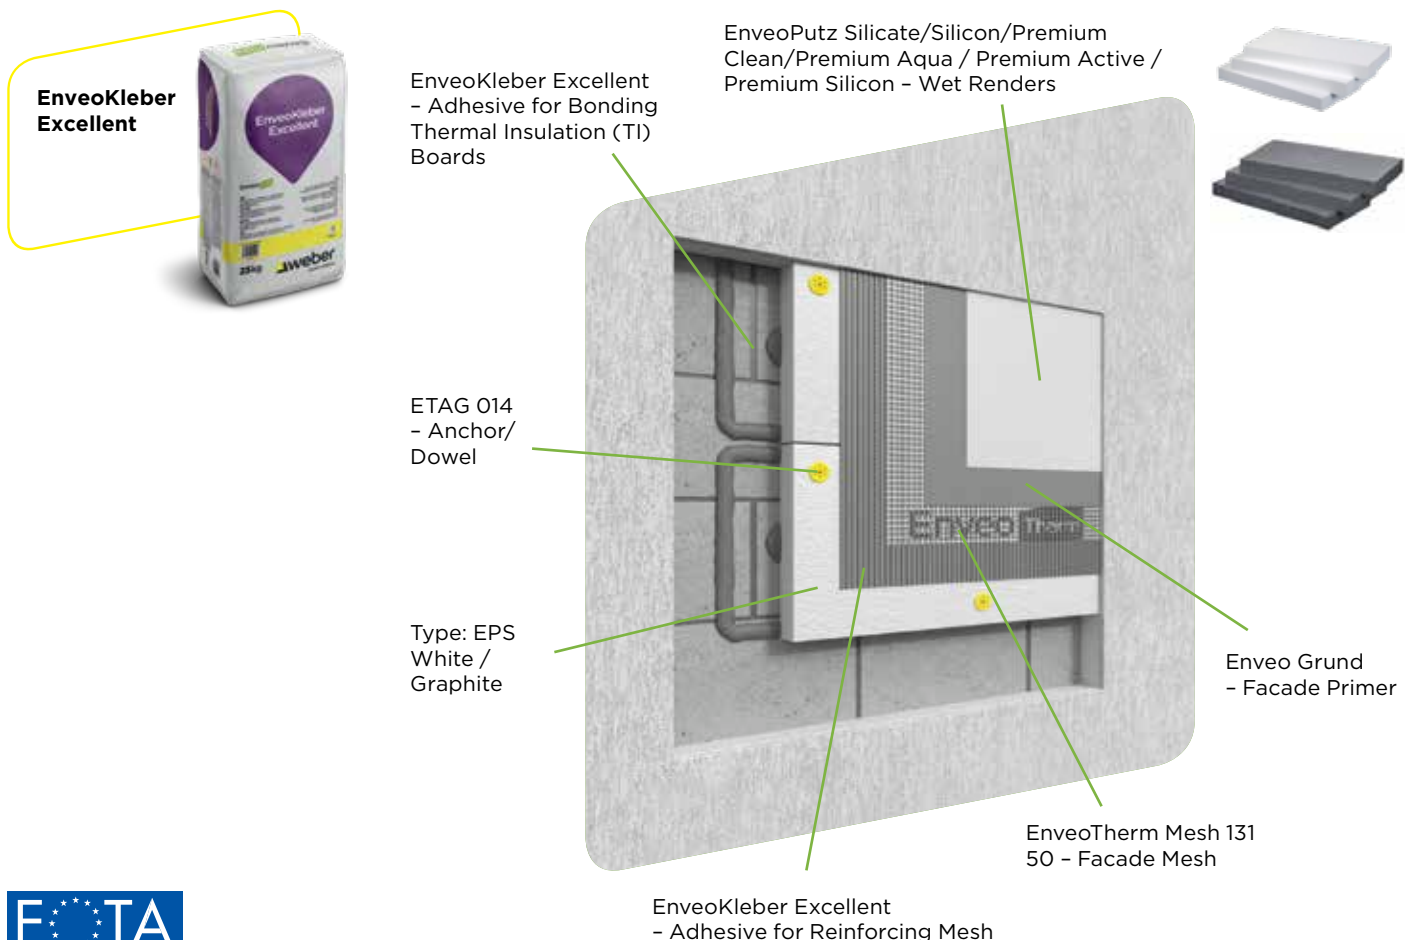

Recommended system components

EnveoTherm Excellent

Built for **long-lasting durability** and **low maintenance costs**, it provides an economical solution with a warranty of up to 10 years (depending on project needs). The system's **wide range of color options** offers great design flexibility, while its innovative materials ensure exceptional reliability for years to come.

Recommended system components

WATER RESISTANCE THAT KEEPS YOU DRY AT ALL TIMES

EnveoPutz Premium Aqua

is a high algae and mould-resistant plaster with a breakthrough hydrophilic effect that regulates moisture on the surface. It is vapour-permeable and environmentally friendly without biocides.

Enveo Therm

Renders

Where function meets design.

From classic silicone and silicate finishes to innovative moisture-regulating, pollution- or algae-resistant solutions. Available in nearly 400 colors with beautiful, popular grain sizes and textures.

EnveoPutz Premium Aqua

WATER RESISTANCE
THAT KEEPS YOU DRY
AT ALL TIMES

A high algae and mould-resistant plaster with a breakthrough hydrophilic effect that regulates moisture on the surface. It is vapour-permeable and environmentally friendly without biocides.

Naturally resistant to microorganisms, including algae and mold.

Provides great vapor permeability for moisture regulation.

Ensures rapid surface drying after rain, enhancing durability.

EnveoPutz Premium Active

RESISTANCE THAT
WON'T GIVE OPPONENTS
A CHANCE

A quality plaster with improved mold resistance that features easy maintenance and minimal impact to the environment.

Innovative silicate facade render, providing superior protection.

Highly resistant to pollution and microorganism growth.

Exceptional vapor permeability, ensuring optimal moisture regulation.

Renders

EnveoPutz Premium Silicon

PLASTICITY THAT
ALLOWS YOU TO ACHIEVE
ALL OF YOUR GOALS

A highly flexible plaster that has excellent water repellent properties and excellent vapour permeability.

Extreme flexibility and crack resistance for enhanced durability.
High water repellency, ensuring superior moisture protection.
Excellent color stability, maintaining facade aesthetics over time.

EnveoPutz Premium Clean

DURABILITY THAT
KEEPS YOUR COLORS
IN SHAPE

A high-quality silicone plaster suitable for all types of insulation, characterized by its high bond strength with the substrate, extreme vapor permeability, self-cleaning ability and resistance to microorganisms.

High water resistance and vapor permeability for optimal facade protection.
Naturally resistant to algae and mold.
Suitable for all types of contact facades, providing versatile application.

EnveoPutz Silicon

MULTIFUNCTIONALITY
THAT PLAYFULLY DEALS
WITH ANYTHING

A highly stable plaster with the highest colour intensity and durability, combining all the good qualities of silicate and silicone plasters.

Extreme elasticity, reducing the risk of facade cracking.
High water repellency, protecting against moisture-related damage.
Excellent color stability, ensuring a visually appealing finish over time.

EnveoPutz Silicat

EFFICIENCY THAT CATCHES
ALL OPPONENTS

A highly effective, self-cleaning plaster that is naturally resistant to micro-organisms, UV rays and is water repellent.

Exceptional vapor permeability, supporting effective moisture regulation.
High resistance to algae and mold, maintaining facade hygiene.
Provides great adhesion, ensuring long-lasting application.

ADHESION YOU CAN'T TEAR YOURSELF AWAY FROM

EnveoKleber Premium

is an extremely high quality adhesive suitable for all types of buildings and insulation, with high adhesion and easy workability.
www.testisthebest.com

Enveo Therm

Adhesives

Outstanding bonding strenght.

Discover our range of flexible, easy-to-apply adhesives for all insulation types. Whether you opt for lightweight innovation or a classic approach, you're making a reliable choice.

EnveoKleber Premium

ADHESION YOU
CAN'T TEAR YOURSELF
AWAY FROM

A extremely high quality adhesive suitable for all types of buildings and insulation, with high adhesion and easy workability.

Very flexible adhesive, ensuring excellent crack resistance.

Great mechanical resistance, enhancing durability.

Suitable for all types of insulation boards, making it a versatile choice for various insulation systems.

EnveoKleber Premium Light

STRENGTH THAT
WON'T LET YOU DOWN
IN ANY SITUATION

An extremely durable, flexible, white adhesive with high yield, low weight and excellent workability.

Increased resistance to mechanical damage, ensuring facade longevity.

Suitable for thicker application, offering greater load-bearing capacity.

Lightweight fillers reduce material consumption, making it an economical choice.

EnveoKleber Excellent

FLEXIBILITY
THAT ALLOWS YOU
TO DO ANYTHING

A flexible, easy-to-process, premium quality adhesive with high substrate adhesion and ease of application.

Good workability, making it easy to apply.

Frost resistant, ensuring durability in cold climates.

Suitable for all types of insulation boards, providing versatility for various projects.

STABILITY THAT CAN WITHSTAND ANY CHALLENGE

EnveoGrund

is a premium quality universal primer that provides ideal stability for plaster, high hiding power and excellent adhesion to the surface.

www.testisthebest.com

Enveo Therm

Primer and meshes

The foundation of reliable facades.

EnveoGrund is a high-performance silicate-silicone facade primer designed for surface stabilization, regulation of absorption, improved adhesion, and increased water repellency of facade systems. It serves as the base coat for EnveoPutz facade decorative plasters.

EnveoGrund

STABILITY THAT CAN
WITHSTAND
ANY CHALLENGE

A premium quality universal primer that provides ideal stability for plaster, high hiding power and excellent adhesion to the surface.

Regulates absorbency, ensuring an even surface for plaster application.

Increases water repellency, protecting the facade from moisture.

Improves adhesion, enhancing the longevity and durability of the facade system.

EnveoTherm Mesh

SUPPORT THAT
KEEPS YOU IN THE
WINNING ZONE

Innovative mesh with 3D braid so there is no need for the diagonal starting strip

EnveoTherm Mesh 117 50

EnveoTherm Mesh 131 50

EnveoTherm Mesh 3F 50

Solutions full of colors communication

Enveo color palette – design solutions that put you in the spotlight

Discover 390 expertly curated shades, designed for creating contemporary looks or refreshing classic facades. The palette features 15 very light and white tones for clean, minimalist designs, alongside a versatile range of grays, perfect for sleek and sophisticated finishes. With shades grouped by color families, finding the perfect match has never been easier.
